Education

National University of Singapore (NUS)

Master of Computing (General Track)

Aug 2016 – Dec 2017 | Singapore

Universidad Politécnica de Valencia (UPV)

Bachelor's Degree in Computer Engineering

Sep 2011 – Jul 2015 | Valencia, Spain

Work Experience

Senior Android Developer | Grab | Feb 2020 - Present | Singapore

- Led the development of key features within the Grab super-app, focusing on the FinTech vertical (payments, lending).
- Architected and implemented complex UI flows using Kotlin, Jetpack Compose, and MVVM/MVI.
- Optimized app performance, memory usage, and build times for large-scale application.
- Mentored mid-level developers and participated in cross-team technical discussions.
- Ensured code quality through rigorous testing (Unit, Integration, UI) and code reviews.

Android Developer | Standard Chartered Bank | Jan 2018 - Jan 2020 | Singapore

- Developed features for the bank's mobile banking application.
- Worked in a regulated financial environment.

Skills

Programming: Kotlin (Expert), Java (Proficient)
