Education

Korea University

Bachelor of Science in Computer Science

Mar 2016 – Feb 2020 | Seoul, South Korea

GPA: 4.1/4.5

Activities: AI Club President, ACM ICPC Team, Peer Tutor

Relevant Coursework: Machine Learning, NLP, Algorithms

Summer School: Stanford University 2019 (GPA: 3.8/4.0)

Work Experience

Machine Learning Engineer | Kakao | Mar 2020 - Present | Seongnam, South Korea

- Built transformer-based NLP models with PyTorch.
- Optimized inference pipelines reducing latency by 30%.
- Deployed microservices on Kubernetes.

Skills

Languages: Python, Java

Frameworks: PyTorch, TensorFlow

Tools: Docker, Kubernetes, MLflow

Certificates

TensorFlow Developer Certificate

Coursera: NLP Specialization

Awards

Kakao Innovators Award 2022

KU Academic Scholarship
