

Hannah Lee

Seoul, South Korea

hannah.lee@fakemail.kr | +82 2 1234 5678 | LinkedIn | GitHub

Education

Korea Advanced Institute of Science and Technology

Bachelor of Science in Computer Science

Mar 2017 – Feb 2021 | Daejeon, South Korea

GPA: 4.3/4.5

Activities: ACM ICPC Coach, AI Club Lead, Peer Tutor

Relevant Coursework: Data Structures, Machine Learning, Algorithms, AI

Summer School: Stanford University 2020 (GPA: 3.9/4.0)

Work Experience

Software Engineer | Naver | Mar 2021 - Present | Seongnam, South Korea

- Developed search algorithms in C++.
- Implemented backend services in Java Spring Boot.
- Optimized database queries reducing latency by 20%.

Skills

Languages: C++, Java, Python

Frameworks: Spring Boot, TensorFlow

Tools: Git, Docker

Other: Algorithm Design, Performance Tuning, System Design

Certificates

Coursera: Algorithms Specialization

Udemy: Advanced C++

Google Cloud Professional DevOps Engineer

Awards

Naver R&D Excellence Award 2022

KAIST Academic Scholarship
