Education

National University of Singapore (NUS)

Bachelor of Computing in Computer Science

Aug 2019 – May 2023 | Singapore

GPA: 4.6/5.0

Specialization: Networking and Distributed Systems

Activities: NUS Hackers Coreteam, Teaching Assistant for Operating Systems

Work Experience

Network Engineer Intern | Singtel | May 2022 - Aug 2022 | Singapore

- Assisted in the configuration and troubleshooting of Cisco routers and switches.

- Monitored network performance and security using tools like SolarWinds and Wireshark.

- Participated in network infrastructure upgrade projects.

- Documented network diagrams and configurations.

Skills

Programming: Python, Bash, C

Networking: TCP/IP Suite, Routing Protocols (OSPF, BGP), Switching (VLANs, STP), DNS, DHCP, VPN (IPSec, SSL)

Network Hardware: Cisco IOS, Juniper Junos (Basic)

Network Security: Firewalls (Palo Alto, Cisco ASA basics), ACLs, NAT

Tools: Wireshark, SolarWinds, GNS3/EVE-NG

Operating Systems: Linux (Ubuntu, CentOS), Windows Server

Cloud Networking: AWS VPC, Azure VNet (Basic Knowledge)

Methodologies: Network Design Principles, Troubleshooting Methodologies

Certificates

Cisco Certified Network Associate (CCNA)

Awards

Dean's List – NUS School of Computing (Multiple Semesters)
