Work Experience

Senior Frontend Developer | Esker | Oct 2019 - Present | Lyon, France

- Led the frontend development for key modules of Esker's P2P automation suite using Vue.js, Vuex, and TypeScript.
- Designed and implemented reusable component libraries, improving development efficiency.
- Mentored junior frontend developers and established best practices for code quality and testing.
- Collaborated with UX/UI designers to ensure optimal user experience and interface implementation.
- Optimized application performance and bundle size using techniques like code splitting and lazy loading.
